STABILITY CERTIFICATE

The building constructed for Vivekanand School of Excellence, Hanchipura Road, Sargur Taluk, Mysore District, is a load bearing masonry structure having ground and first floor with built up area of 4228.59 m², Age of ground floor being about 15 years and age of part of first floor being about 8 years and age of other part of first floor is about 2 years. The plan and available document has been studied and soil has been visually inspected, which is found to be in good condition and capable of bearing loads of the structure. The building has been visually inspected in detail and is found free of crack and deformations. There are adequate RCC slab and beam system in good condition to support floors and roof which are maintained in good condition. On the basis of this study we consider the **building referred above to be safe and stable** for next 25 years from this date.
